

ORBIT MANUFACTURING LIMITED WARRANTY

Orbit Manufacturing Company warrants all TXLP Series Cable. In addition to the standard ten (10) year warranty from Nexans (the manufacturer), Orbit Manufacturing Company makes available to the original property owner an additional Twenty (20) Year Limited Warranty, warranting against defects in workmanship and material from the manufacturer only for the time period of twenty (20) years following the date the Nexans' warranty terminates (i.e. 30 years in total from the date of sale).

This additional Twenty (20) Year Limited Warranty is **ONLY** valid on TXLP Series Single and Twin Conductor Interior Cable sets and Millimats that are buried within an approved covering material. The Twenty (20) Year Limited Warranty **IS NOT** valid on custom designed cables, both interior and exterior, nor exposed TXLP Series Cable, primarily regarding Roof/Gutter applications. These types of "Custom" Cable applications will only be covered under the Standard Manufacturers Ten (10) Year Limited Warranty and not the Orbit Extended Twenty (20) Year Limited Warranty.

Orbit Manufacturing Company warrants all indoor and outdoor "control products" (i.e. contactor panels, thermostats and sensors) against manufacturer's defects in workmanship and material for a period of one (1) year from the date of sale.

Orbit will extend the Warranty for indoor thermostats and indoor sensors only, for one (1) additional year from anniversary date of sale (i.e. 2 years in total from the date of sale).

All of the above sections of this warranty apply to manufacturer's defects only and do not cover damage or failure caused by natural causes or third parties.

If product failure does occur within the time period specified according to the provisions of this Warranty, then **Orbit Manufacturing Company** agrees to provide the replacement Control Product or Series TXLP Cable free of charge, F.O.B. factory.

This Warranty is valid only so long as the Control Products and/or cable is installed on the premises of the original installation. Removal of the cables automatically invalidates this Warranty. As described above, this warranty is **expressly limited** to the material cost of the Control Products and/or cables and does not extend to other material(s) or labor costs.

Orbit Manufacturing Company will not be responsible for any costs incurred in the removal or reinstallation of the control products and/or cables furnished by manufacturer under this warranty.
